### A Word to Republicans.

The hope of the party lies in the expansion of a stalwart Republican press. The Repub-Hean who reads or otherwise helps to support a Democratic paper to the exclusion of one of his own party newspapers is untrue bers just how much it costs him to put to the Republican cause. The rejection of this proposition must mean that the Democrats intend the repeal of all Tariff taxes save possibly a few for revenue only. Contemplating a system of taxes on incomes or the Henry George scheme of putting all taxes on land, the Democrats refused to say that the system on Tariff taxes on foreign goods is to be maintained permanently even to procure revenue. This action follows in line with the course of Democratic Congressmen in printing HENRY GEORGE's single tax book in The Congressional Record and circulating it at public expense as a Democratic campaign document. What will farmers and land owners think of paying all the taxes while stocks, bonds, etc., go free.

 Moreover, many industries have come to rely upon legislation for successful continuance, so that any changes of law must be at every step regardful of the labor and capital involved. The process of reform must be subject in the execution of this plain dictate of justice.

The rejection of this plank was very significant. In going back to the old ante-bellum doctrine of Free-trade why should the Southerners pledge themselves to spare Northern interests or labor? What they are after is to secure benefits for themselves at the expense of the North, and they now have the courage to say so just as they did before the

Last week we showed how the working man was not taxed on his son's clothes. The illustration presented above performs a like duty for his daughter's dress. It is no less true of everything he buys. Every purchase he makes demonstrates the utter absurdity of Grover Cleveland's Tariff Tax Theory. Do not forget that the dress itself, the bill of sale and complete proof of the truth of all we say are open to inspection in this office. - From AMERICAN ECONOMIST.

Honesty required that this should be stricken out, and for once modern Democracy was honest. The old time-honored doctrine of Free-trade to which the Democratic party has now returned contemplated a low Tariff in the interest of right to attend to his own business. Southern cotton planters and foreign nufacturers who were to be benefited to the extent and degree that the labor and industries of the North were damaged. The object was to transfer gains from one to the other. In getting back to this doctrine it is honest and candid in the Democracy to disavow all pretense public was aware of.

CINCINNATI, July 16 .- This city and the Ohio valley was visited by the storm-king Friday afternoon, with considerable damage to property and loss of life. The wind wore a cyclonic aspect in some localities, but these were due to local eddies that developed great twisting powers.

The cyclone attained its greatest force in the neighborhood surrounding the intersection of Fourteenth street and Central avenue.

Here a citizen was fatally injured and others badly hurt, while the damage to property runs into the thous-

Wessling's stove store near by was unroofed, and the debris carried over other buildings and landed half a square away. At 119 Fourteenth street, Oliver Flaherty, aged 10, was standing on a rear stairway, when a timber struck him on the head, cutting an ugly gash. The storm rose after passing Fourteenth, but dropped on Music hall long enough to tear away all the ornamental railing on top of the roof.

The storm carried everything before it in the east end. Trees were uprooted in every direction, cellars were flooded, walls were blown in and many narrow escapes from falling slates from the roofs of houses were witnessed. No less than four runaways took place, and in one instance a fatal termination is expected. The water from the hilltops came down in floods that syvamped everything, doing a great deal of dam-

The frame houses on the Fifth street hill side were all more or less damaged. They are all occupied by colored people, and when the storm was at its height they flew from their homes, expecting to see their houses brought to the ground every second. The framework rattled and vibrated violently. The windows were all blown out at No. 532. The stairway that leads to the house was blown completely away. The trees on the sidewalk were scattered in all directions. The colored people were almost terrified, and stood in the pouring rain until all was over. The Strikers Blow Up Several More Rail-

road Bridges. Wallace, Idaho, July 16.—Two railroad bridges near Mullan were blown up Friday night, and with them several telegraph poles. The strikers also cut down a number of poles, thus shutting off communications by that route for a time. The Gem and Granite mines are all right. The rumor that the Granite mine had been blown up probably started from the report of the explosion when the bridges were destroyed. The military investment of all the towns is complete. No one is allowed to go out without a pass. It is probable that many of the union miners will be arrested Saturday

### Five Killed By Lightning

The intended holding of the great fair at Nijni Novgorod is regarded as a serious matter, tending to the wide-spread diffusion of the epidemic.

Farmer Davis' Turkey.

Madison, Ind., July 16,-On the farm of Mr. Samuel Davis, at East Hollow, four miles above Madison, Ind., there is a singular freak of nature. On last Saturday a young turkey was hatched which has three legs and two tails. The little monstrosity is still alive, and apparently in the best of health.
